SIBU DESIGN GOES GREEN

**D****Aus alt wird neu!**

Wir beobachten täglich die internationalen Märkte, greifen Trends und Entwicklungen in einem sehr frühen Stadium auf, um immer up to date zu sein. Unsere weltweiten Kunden profitieren davon und sind daher mit SIBU DESIGN Produkten modisch und technisch immer am aktuellsten Stand der Marktanforderungen.

Seit Mitte des Jahres 2010 bieten wir unsere gesamten Lederoberflächen NEU in umweltfreundlichem Polyurethan an.

Die bisherigen Glanzoberflächen Bianco, Nero und Mocca sind noch bis 1.10.2010 erhältlich und werden dann in neuer Optik und zusätzlich mit optimierter Haptik angeboten.

**GB****Turning the old into the new!**

We monitor the international market scene on a daily basis and identify new trends and developments at a very early stage in order to be constantly one step ahead of the rest. This approach benefits our customers around the world, for with SIBU DESIGN products they are certain of always being up to speed with market requirements from both a fashion and technical standpoint.

Accordingly, since mid-2010 we are offering our entire range of leather surface products in NEW and environment-friendly polyurethane versions.

The Bianco, Nero and Mocca gloss surfaces will remain available until October 1, 2010. From then on, they will be on offer with a new look and optimised haptics.

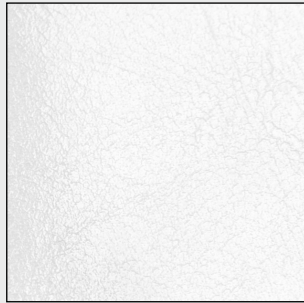

**F****Du vieux au neuf!**

Nous observons quotidiennement les marchés internationaux, nous emparons des tendances et évolutions au stade préliminaire afin d'être en permanence au goût du jour. Nos clients implantés dans le monde entier en bénéficient et sont ainsi toujours au niveau le plus actuel des exigences du marché tant en ce qui concerne la mode que l'aspect technique, et ce grâce aux produits SIBU DESIGN.

Depuis du milieu de l'année de 2010, nous proposons, comme nouveauté, l'ensemble de nos surfaces en cuir en polyuréthane, matière ne nuisant pas à l'environnement.

Les teintes brillantes précédentes Bianco, Nero et Mocca sont encore disponibles jusqu'au 1.10.2010 et seront dès lors proposées dans la nouvelle optique et avec un meilleur touché.
