TRESPA®

TRESPA® METEON®

STRONG BRAND IN FAÇADES AND FAÇADE ELEMENTS

BUILDING A NEW HOUSE OR RENOVATING AN EXISTING HOME OR OTHER TYPE OF BUILDING IS OFTEN A CHALLENGING TASK FOR HOME OWNERS. FINDING THE RIGHT BALANCE BETWEEN FUNCTIONALITY AND AESTHETICS IS ESSENTIAL WHEN SELECTING FAÇADES AND FAÇADE ELEMENTS. TRESPA HAS BEEN SUPPORTING DESIGNERS, BUILDING CONTRACTORS AND HOME OWNERS IN DESIGNING AND CREATING SUSTAINABLE FAÇADE SOLUTIONS FOR OVER 50 YEARS.

Architects are generally not involved when building or refurbishing small buildings or their façades. In over three quarter of all cases, the building owner and the contractor jointly agree the final appearance and design for the building. This brochure helps you select the right façade material.

Recent market research indicates that the following aspects play a key role when selecting the façade:

1 DESIGN FREEDOM

The freedom to choose colours, decors and finishes, both for new-build and renovation projects.

2 RELIABLE ASSEMBLY

Easy and reliable assembly and fast installation of façade solutions.

3 PRODUCT QUALITY

Product guarantee covering the dimensional and colour stability of the façade panels.

4 MAINTENANCE FRIENDLY

Little and easy maintenance, easy to clean and graffiti-resistant.

5 IMPACT-RESISTANT

A product with a good impact resistance that withstands daily wear and tear.

6 SUSTAINABLE

Reduction of energy consumption and the use of sustainable materials.

7 COMPETITIVE PRICE

Low installation cost for the total façade solution.

Multi housing/Apartments | Switzerland

1 DESIGN FREEDOM

Trespa's wide range allows you to match the colours of façade elements or dormer windows to those of other parts of the building. For example, the Trespa® Meteon® Matt lets you create a natural, matt look.

Private house | Croatia

2 SOLID ASSEMBLY

The edges of Trespa® Meteon® do not require extra finishing; even sharp corners can be achieved without finishing. The risk of chipping on the edges is very slight; furthermore, various fixing methods are available to install Trespa® Meteon® panels.

3 GUARANTEED PRODUCT QUALITY

All Trespa products are tested under extreme conditions. Trespa's tests exceed the requirements of the European EN 438-2 standard. The panels' colour stability is tested according to the Florida cycle (comparable to exposure to the intense sunlight and humidity in Florida). Trespa offers a ten-year limited product warranty. Contact your local representative for further information.

Private house | Switzerland

4 MAINTENANCE FRIENDLY

The closed surface of Trespa® Meteon® practically withstands dirt accumulation, keeping the product smooth and easy to clean. Contaminants like soot, crayons, graffiti and even permanent markers are easy to remove if the appropriate cleaning methods and products are used in accordance with Trespa's cleaning and maintenance instructions (trespa.info).

Private house | Switzerland

7 COMPETITIVE PRICE

Trespa® Meteon® is quick and easy to install. Trespa offers four panel sizes which minimise cutting losses. And by choosing the right fixing system you can install the panels simply and rapidly. The ease of customization and installation creates cost and time savings for project budgets.

Private house | Croatia

6 SUSTAINABLE

Wood is a natural renewable resource which absorbs CO₂ from the atmosphere around us. Trespa® Meteon® products contain up to 70% natural fibres. The entire Trespa® Meteon® product range is now available with PEFC™ or FSC™ certification in restricted quantities and jurisdictions.

5 IMPACT-RESISTANT

Trespa® Meteon® has good impact resistance and safely withstands daily wear and tear. For example: a pressure cleaner can remove dirt safely, without damage to the panel.

DISCLAIMER

GENERAL

These terms apply to the use of this document and such use automatically means that the other party agrees to these terms. The information provided by Trespa International B.V. ("Trespa") in this document is solely indicative. Trespa is unable to warrant the accuracy and completeness of this information. Trespa may change the information included in this document at any time and without further notice. Trespa's customers and third parties must ascertain that they have the most recent document (for the most recent version, please consult: www.trespa.com). No rights can be derived from the information provided; the use of the information is at the other party's risk and responsibility. Trespa does not warrant that the information in this document is suitable for the purpose for which it is consulted by the other party. This document does not contain any design, structural calculation, estimate or other warranty or representation that customers and third parties may rely on. This document does not guarantee any properties of Trespa products. Colours used in Trespa's communications (including but not limited to printed matter) and in samples of Trespa's products may differ from the colours of the Trespa products to be supplied. Samples are not intended for use in product tests and are not representative of characteristics of the Trespa

products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallic panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides. Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above. The most recent version of the current delivery programme and the Material Properties Datasheet can be found at www.trespa.info. Only the information in the most recent and valid Material Property Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

LIABILITY

Trespa is not liable (neither contractual nor non-contractual) for any damage arising from or

related to the use of this document, except if and to the extent that such damage is the result of wilful misconduct or gross negligence on the part of Trespa and/or its management. The limitation of liability applies to all parties affiliated with Trespa, including but not limited to its officers, directors, employees, affiliated enterprises, suppliers, distributors, agents, and representatives.

GENERAL CONDITIONS

All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related activities of Trespa are governed by the Trespa General Terms and Conditions of Sale (*Algemene verkoopvoorwaarden Trespa International B.V.*) filed with the Chamber of Commerce and Industry for Noord- en Midden-Limburg in Venlo (NL) on 11 April 2007 under number 24270677, which can be found on and downloaded from the Trespa website, www.trespa.com/documentation. All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related work of Trespa North America, Ltd. are governed by the Trespa North America General Terms and Conditions of Sale, which can be found on and downloaded from the Trespa website, www.trespa.com/documentation. A copy of these general conditions of sale will be provided free of

charge on request. All general terms and conditions other than the conditions mentioned above are dismissed and do not apply, regardless of whether such terms and conditions are referred to on requests for offers, offer confirmations, stationery and/or other documents of the other party, even if Trespa does not expressly object to such terms and conditions.

INTELLECTUAL PROPERTY

All intellectual property rights and other rights regarding the content of this document (including logos, text and photographs) are owned by Trespa and/or its licensors. Any use of the content of this document, including distribution, reproduction, disclosure, storage in an automated data file or the dispatch of such a file without Trespa's prior written consent is explicitly prohibited. * Trespa, Meteon, Athlon, TopLab, TopLab^{PLUS}, TopLab^{ECO-FIBRE}, TopLab^{VERTICAL}, TopLab^{BASE}, Virtuo, Izeon, Pura NFC, Volkern, Trespa Essentials and Mystic Metallics are registered trademarks of Trespa.
